lluvia

① INV/REST/MAN.

Hacia el apartamento y la ciudad

Hasta las 13.00 lluvia muy intensa. Durante la visita, momentos de lluvia y después

Muy poca gente estando en la calle: todos metidos en los bares

Se veían dos o tres grupos de jóvenes (20-30) en los tejadillos de los centros de transformación eléctrica

lugares donde se refugia a tomar notas:

- portales rematados

- salientes de terrazas: coincidentes con portales o no.

- gran soporte al edificio o la asociación de vecinos

lugares donde no se puede, por estar vallados

- saca cubiertas junto a portales

- soportales en esquinas o bloques, que son externos o salientes en el espacio público

Un beso bajo un paraguas, en medio de un pliegue de aparcamiento mientras llueve

De los que está en la calle
la mayor parte está
